

### **Sandra Ngulube – Chance4all Programme Officer**

My names are Sandra Ngulube, born 1995 in Lusaka, am the first born in the family of four. I did my primary education at State Lodge (A) primary school, from 2003 to 2009, where I obtained a primary certificate. From 2010 to 2011 I did my junior secondary course at State Lodge (B) primary school and was awarded a junior secondary certificate. Later in 2012 to 2014 I pursued my senior secondary course at Kabulonga Girls Secondary school, where also I was awarded with a General School Certificate. From 2016 to 2018, I graduated with a diploma in junior secondary education, at City University of Science and Technology, in the school of Education, under social sciences. Toward the end of 2018, that was when I joined Chance4all as a volunteer, through Lyle who happened to be a friend of Anna Caprile. From then till now, I have served Chance4all as a Volunteer, Administration and Education Assistant and now Program Officer. I am currently pursuing a Bachelor of Education in Education Administration and Management at University of Zambia (UNZA), with full sponsorship of Chance4all.

*We, Chance4all Directors, are extremely proud of Sandra and of the way she has grown and evolved since she joined Chance4all as a volunteer in January 2019. She has become an essential figure in Chance4all organisation, trusted by children, school management and teachers, and that way she earned to be upgraded to a new management position. We are proud (and a bit moved) to see her now starting her university studies, helped by Chance4all sponsorship, in reward for her work in Chance4all.*
